NUMBER 35.

Grand Jury to Probe Burglar Tried to Waterworks Deeper

Raps Officials for Laxness in Administration. - Fourteen True Bills are Found.—Heavy Criminal Calendar.

After going through the books of the Wailuku Waterworks and listening to a number of witnesses as to the condition of the accounts of both the Wailuku system and that of Makawao, the grand jury yesterday de-cided that it did not care to take any action against any individual at present. In making its full report yes-terday afternoon, however, it took occasion to rather pointedly rap the administration of the waterworks, and to indicate that it may care to go into the matter further at some future time. Accordingly, in dismissing the inquisitorial body, Judge Edings, did so, subject to calling it together again in case it may seem best to do so.

The report of the jury is as follows: "The grand jury will await the final report of the County supervisors be-fore proceeding further in connection with the Wailuku Waterworks in 7es-"But from the evidence brought be-

fore it, it is clear that the officials in authority in this matter have not had a proper appreciation of the duties of their office, and it recom-mends that they be more diligent in

Fourteen True Bills.

The grand jury, which assembled at 10 o'clock on Wednesday morning con-cluded its work shortly before 4 o'clock yesterday afternoon when it reported the finding of 14 indictments and one no true bill. The last mentioned was the case of Marcello Man-sana, charged with having had illicit relations with a girl under 15 years of age. The grand jury found that the evidence was not sufficient to hold the man.

All the members of the grand jury were present when the roll was call-

were present when the roll was called Wednesday morning, with the exception of R. B. Dodge, who is absent on the Coast. Judge Eding's charge was made in his usual succinct and to-the-point style. Clarence G. White, was named foreman, and Joseph B. Wilson, bailiff of the body.

The members of the grand jury are—M. C. Ayers, W. R. Boote, John C. Cabral, Ed. V. Dunn, Geo. Edwards, Chas. K. Farden, Geo. H. Farnsworth, E. Haneberg, Wm. B. Hardey, L. B. Kaumeheiwa, Frank H. Locey, M. T. Lyons, Manuel Martins, Philip Pali, Edwin Soper, A. K. Ting, John F. Visher, C. G. White.

The indictments found were as follows:

Pak Yun Sik (2), for forgery and passing a forged writing. This was the case of the Korean who is charged with having forged the name of Mrs. D. Baldwin

later honored by the banks.

Lucio Calunud, passing a forged writing, in securing \$60 on a stolen

pass book. Juan de la Cruz, burg'ary in the second degree. Rifling a trunk of a friend at Keahua of \$50 in cash, a

watch, and other valuables.

Jacinto Abad, assault with intent to

ravish. (At Camp 1).

Pyen Kur Bock (3), burglary in second degree. Robbed various houses in Puunene, Paia, and other places. Jose Colon, rape. Porto Rican charg ed with assault on young girl at Wai

hee some weeks ago. Toromatsu Yoshimura (2) assault with a dangerous weapon. Seriously cut two other Japanese at Maalaea during a drunken row some months

ago. Yokotaro Yumashita (3), assault with intent to ravish. Case of Puunene Japanese accused of felonious relations with three little Japanese

Two Pleaded Guilty.

All the prisoners indicted were arraigned this morning, and two pleaded guilty. These were Pyen Kur Bock and Pak Sun Sik. They will be sen-tenced tomorrow morning. All of the others reserved their pleas till tomor-

Trials Monday.

The trial jury has been summoned to assemble next Monday when the criminal calendar will be taken up. Besides the above cases, there is a large number of other cases appealed C. C. Campbell, Wm. A. Clark, E. F. Deinert, Wm. E. Devereaux, F. G. Duarte, Manuel Dutro, F. H. Enders, Augustine Enos, M. S. Leval, E. C. Mellor, Edgar Morton, Jr., Geo. C. Murray, John H. Nelson, Raymond Rosario, V. C. Schoenberg, Geo. Ste-phenson, F. G. Stevens.

A company of Spanish actors, which has been playing in various playhouses on Maui is attracting much attention from the Spanisa and Portuguese portion of the community. The costuming is said to be very claborate. The drama is that of "Jose

Robberies in Plantation Camps. Another Korean Is Jailed.

Captured by police officer M. G. Paschoal as he was in the act of draw-ing a revolver from a specially constructed breast pocket, Pyen Kur Bock, a Korean house-breaker, is now in the Wailuku jail with three indictment confronting him, each charg-ing second degree burglary. The ar-rest was made near Camp 4, Puunene, last Thursday. Paschoal was looking for the man who was suspected of being responsible for a Puunene rob-bery, when he met him on the road. The officer was on horseback, when he accosted the Korean, who immediately made a grab for his gun. Paschoal jumped from his horse and grabbed the desperadoe's wrist just as he pulled the revolver from his pocket.

Later the Korean, who is believed

to be a Honolulu bad man, to the great surprise of the officers began to con-fess a series of burglaries of which no report had been made, but which proved to be authentic. He took the police to half a dozen houses in the Pulehu camp at Paia, that he had en-tered in broad daylight, taking money, and watches, to the value of \$150 or more. He had also robbed several places in Hamakuapoko, and in Puunene. He carried a bunch of skeleton keys, and his method of operation was wards locking the place behind him. In no instance had he used force in effecting an entrance

The man's case was brought before the grand jury yesterday, with the result that three indictments were found against him. He will be tried next

For Receiving Stolen Goods.

Lei Kong Yong, a Korean, in Camp Puunene, was also arrested during the week for receiving a watch which had been stolen by Pyen Kur Bock. The man to whom he sold the time piece for \$2 grew suspicious on ac-count of the low price for which the Korean was willing to part with ,it and reported the matter to the police. It was through this that the officers were able to get upon the trail of the burglar. Lei Kong Yong was tried in the magistrates court and fined \$19 and sent to jail for three months.

Honolulu Anglers Rescue Boat's Crew

Three Japanese Drifting in Molokai Channel Picked Up by Pleasure Party.—Fishing Trip a Success.

To spend a week in trying out the fishing in Maui waters, the power sampan Ona, owned by Guy Rothwell, of which is already highly efficient, and the Honolulu Iron Works, arrived at a machine gun company, in Hilo. Lahaina last Sunday night, after a somewhat eventful voyage. The little craft is commanded by Rothwell, with F. B. Dodge as 1st officer; Bert Nott, steward, and Oswald Lightfoot, as cabin-boy. These four made up the entire ship's company.

The Ona left Honolulu last Saturday

The Walluku armory

night, landed at Kaunakakai for a few hours rest Sunday morning, where some good fishing was found, two dolphins, several fine ulua and ona being taken. On the passage across the channel the sampan sighted a flag of distress in form of a handkerchief waved frantically from the blade of an oar, and upon investigation found three Japanese in two boats of the schooner Ka Moi, who were unable to make headway against the current and were being rapidly carried down the channel. The Ono took the boats in tow and landed them at Lahaina about 6 o'clock Sunday evening. It seems that one Japanese in a boat drifted away from the schooner which was anchored at Kaanapali, and the second boat had gone to the rescue, but was also unable to return.

Capt. Rothwell and crew spent Monday visiting friends in Wailuku and other points on central Maui, starting out again on Tuesday for the Moloed to spend the rest of the week.

Loan Fund Board Calls For Kihei Road Bids

The second tenders to be called for by the Maui Loan Fund Commission, since the new appropriations became available, are published today, in connection with the construction of the homestead road through the Kihel homesteads. The bids will be opened on November 6. The commission will open the tenders first called for for the construction of the new dining room and kitchen of the Kula

sanitarium, at noon tomorrow. Engineer Balch is spending several days this week at Olinda, on the reservoir project. He expects to finish up the field work on the Kuiaha homestead project probably next week.

Full Battalion For Maui Is Perfected

Three New Companies In As Many Days.-New Rifle Range Selected.

When Col. Sam Johnson returns to Honolulu tomorrow, after spending a week on Maui, he will have practically perfected the organization of the Paia camps was robbed of \$51.75 two, and perhaps three new companies by two unknown horsemen. The hold-of the Hawaii National Guard, and up took place about 11 o'clock at left behind him a stock of enthusiasm that practically insures the success of the whole national guard organization the road, and being a little uneasy, of this island. Col. Johnson, who is spurred his own animal up, intending reorganizing the militia troops of the Territory in his capacity of adjutant general, is accompanied by Lt. W. C. Whitener, U. S. A., who is inspector general of the national guard in the Islands

One company was organized at Kahului early in the week, of which J. J. Walsh will be commander. This company, will be known as Company K, and it starts off with an enrollment of about 65. At Paia another company is assured of 60 or 70, and Walluku is also to have a new company. At La-haina the strength of the old company L, has been brought up to its maximum, and there is material, Col. Johnson says, for another company, if such is found desirable. At the present time, however, Maui's complement to the territorial troops will be but one battalion, although Col. Johnson intimates that he may later or ganize another battalion here. New Rifle Ranges

While there has been talk of a rifle range for years for Wailuku, but with no materialization, Col. Johnson states that there will be a range ready for service as soon as the necessary butts can be built. He discarded the site selected above the cane fields, back of the Penhallow home, as being inconvenient, and disturbed too much by winds; and in its stead picked out a location in the sand hills between Wailuku and Kahului. This place, is declared to be very near ideal for the purpose, besides being convenient for the use of several companies. Work has already started on a range for the Lahaina company Athletics a Feature.

Athletics are to be a prominent feature in connection with the work of the national guard from now on, Col Johnson declares. There are to be local tournaments in all parts of the territory, to begin shortly after the first of the year, the winners in which will later meet in Honolulu for the guard championship struggle, W. S Chillingworth, of Wailuku, 1st lieuten ant in Company I, Wailuku, has been appointed inspector of small arms practice and athletic officer, and will have direct charge of the athletic

Col. Johnson has just came from Col. Johnson has just come from he organized 14 companies, where but one had existed before. Among these

As in other parts of the Territory Johnson is receiving the fullest support from the prominent citizens of the community, so that his work has been made comparatively simple.

A meeting of the various officers at the Wailuku armory tomorrow afternoon, at which time the plans for the future of the guard will be discussed. It is possible that a number of new officers for the new com-panies will also be announced.

Insurance Company Balks at Motor Boat

Lanai Company Also Can't Get Insurance Because No Doctor Resides on the Little Island.

Because four of the employees of the Raymond Ranch are men operat-ing a power boat between Maui and the insurance company which had taken the workmen's com-pensation risk of the corporation, has notified the industrial accident board that it purposes cancelling the policy. because the motor boat is considered a risk that it cannot assume. Also the Lanai Company has notified the board that its policy is to be canceled by the insurance company for the reason that Lanai has no regular resi

dent physician.

Both of these companies will there fore be obliged to carry their own in-surance, or make other arrangement for providing compensation for their employees under the Workmen's Compensation Law.

Because of the unsatisfactory schedule of mails between the wharves and Walluku, especially since the landing at McGregors was condemned, it is probable that the matter will be brought to the attention of the cham-ber commerce at its next meeting, with a view of, if possible, getting a more satisfactory service.

Wild West Hold-Up Takes Place on Maui

Bad Korean Confesses to Series of Bold Adjutant-General Johnson Organizes Japanese Lassoed and Pulled From Horse, Relieved of more than \$50. -Highwaymen Not Identified.

> Jerked from his horse by a lariat brown over his head, as he rode along the Paia-Makawao road last Monday night, and only a short distance out-side of Paia. The Japanese first saw one of the horsemen near the side of to leave the unknown rider behind. The next thing he knew a rope set-tled about his neck, and he found himself on the ground with a badly wrenched shoulder.

Two men, whom he cannot describe except that he is sure they are neither Japanese nor Filipinos, then demanded his money, and forced him to give up his purse containing all he had. The purse fastened with a combination, and after trying in vain to open it, the robbers forced their victim to do this for them. They then ordered him to get on his horse and to "beat it."

The victim of the highway robbery is certain that the rope with which was lassoed was a leather lariat as he had his hands on it in effort to throw it off. From this it believed by the police that the desperadoes are cowboys. The police also believe that they have some clues which will soon lead to the arrest of the guilty parties.

HEEDLESS BOY BUMPS INTO AUTO SUSTAINS BROKEN LEG

Through trying to dodge in front of an automobile, a 10-year old Olowalu boy, named Moke, was struck by the car, last Sunday, sustaining a broken leg. He is now undergoing repairs at the hospital in Lahaina. According to all reports no blame attaches to the driver of the car, which was running slowly at the time. The boy was play-ing with other boys, and either did not see the machine or else took a chance. The driver is named Aka-michi, and he belongs in Lahaina.

Prominent Men Will Eat Maui Pineapple

Handsome Gift Boxes of Fruit Shipped to Notable Americans on the Mainland on Account of Pineapple Day.

By the Lurline sailing for the coast Maui pineapples, packed by the Haiku Fruit & Packing Company, and each addressed to a prominent citizen on the mainland. This fruit, which is of course of the best quality that Maui can produce, which means second to none, is being sent out in connection with the celebration of Hawaii's "Pineapple Day," November 10. The shipment made by the Haiku cannery is but one of several which of the Maui companies is to be held have been sent by other packing con at the Walluku armory tomorrow cerns, the idea being to bring Hawaii prominently to the attention of a very considerable number of influential citizens, and to secure their coopera-

ion in the Pineapple Day celebration. Those who will eat Maui pineapple on November 10 are—E. S. Hana District People Asking for High School

Hana district wants a high school The matter was brought to the atten-tion of Prof. McCluskey, supervising orincipal, during his visit to the east Maul district last week, and he has promised to give the matter consideration. It is claimed that there are pupils sufficient in Hana to make a high school feasible, and that such a school could be established without great additional cost in connection with the present graded school. Should the project go through it would probably require two extra teachers and a two-room addition to the pres-
